## ALL LANDS OF THE LION FIGHT TO END

Premier of Australia Says Preparedness and Compulsory Service Essential.

TALKS TO THE CANADIAN CLUB

OTTAWA, Peb. 20,-Premier Hughes of Australia outlined the attitude of the commonwealth toward the war in an address at the Canadian club today. He declared as a labor representative that preparedness and compulsory service are essential for the security of any free people who desire to retain their

The premier's address was greeted with cheers. Among his hearers were the duke of Connaught, governor general of Canada; Sir Robert Borden, the premier; Sir Wilfrid Laurier, leader of the opposition, cabinet ministers and many of the prominent men of the Dominion.

Bravery of Canadians.

After praising the "dauntless bravery of the Canadians," Premier Hughes de-clared historic Balakiava was not to be pared with the charge of the Eighth Australian light horse, where only fifteen men survived out of 500. When the order for the charge was given ten hours before it took place, the men knew that for most of them it meant certain death, and they gave farewell messages to friends e to their comrades in the trenches. Australia has 260,000 men enlisted, he said, and 165,000 have been sent forward to the front. By June it is expected that 300,000 will be under arms.

Value Their Liberty. Australians, the premier declared, valued their democracy and liberty, and were ready to fight for them to the last

"We could have purchased ignoble peace," Premier Hughes asserted, "The Germans were prepared to treat Canadi-ans as an independent nation and to cona like favor on Australia. Germany now knows that it is fighting not only England, but also the men of adventure and resolution in all the British dominions, who will fight to the end alongside those who gave them their traditions. We shall not quit while life remains in us. "The safety of the dominions of the em-

pire was due to the British navy, and it is because of the strengthening of the navy that we live as free men today. Had Britain been prepared as well by land as by sea there would have been no war."

#### Brewster Is Here To Tell Omaha Men Of Defense Plans

The fifty-four men selected last week by Mayor Dahlman to attend the national by Mayor Dahlman to attend the national conference at St. Louis, March 3-4, are expected to meet in the council chamber of the city hall at 3 c'clock this afternoon. There they will listen to William Brewster, secretary of the National Defense league, outline plans for preparedness. While the city hall meeting is for delegates others a c at liberty to attend. Mr. Brewster arrived in the city Sunday afternoon and registered at the Rome hotel. He spent the evaling with frinda. He is on something of an extended trip

## Villa Captures Band Of Carranza's Men

EL PASO, Tex., Feb. 20,-General Vejustiano Carranza, head of the de facto Mexican government, in a letter to Andreas G. Garcia, Mexican consul here, today declined the acceptance of a loan said to have been tendered by a syndi-cate of Chicago bankers, and declared to

have been of an unlimited sum. Francisco Villa has captured a small band of Carransa troops sent from the Guerrero district in western Chihuahua, to attack him.

## PLUTOCRATS MUST PAY FOR DEFENSES

Incomes Will Be Taxed More Instead of More of Them Being Taxed, it is Believed.

CAN RAISE HUNDRED MILLIONS

WASHINGTON, Feb. 20 .- The proposal to amend the income tax law so as to include smaller incomes is virtually certain to be abandoned in favor of an increased rate on those already taxed, it was declared last night by democratic house leaders.

Sentiment against lowering the exemption limit in order to provide additional revenue for the preparedness program crystalized, it was said, in the democratic caucus Thursday night, when Democratic Leader Kitchin declared against changing the present minimum of \$3,000. gince then protestants against all reduction plans have become more outspoken daily.

Can Meet It Thu Way. Leaders declared tonight that virtually the entire preparedness revenue burden would be met with income taxes. Tenta-tive hills looking to raising \$100,000,000 solely by an increased income tax rate are being discussed and will be offered soon in committee.

One of the democratic leaders who will be active in framing the administration bill said tonight that he would suggest doubling the present 1 per cent rate on incomes below \$20,000 and possibly make the tax on incomes above that amount as high as 8 per cent. He also might subject to the 1 per cent rate to \$15,080, he said. Married men, according to this plan, would be given the advantage of an additional \$1,000 exemption as in the pres-

How Much Needed. Although neither the naval nor military affairs committee has indicated what the expenses of preparedness, it generally is understood that for the first year it will be close to \$83,000,000. Tentative plans. it is said, will proceed, therefore, on the theory that about \$100,000,000 will be

It was decided by the committee that the California delegation to Chicago should go uninstructed.

#### HILLSTROM'S ATTORNEY MAKES GENERAL DENIAL

SALT LAKE CITT, Utah, Feb. 20,— O. N. Hilton of Denver, attorney for Joseph Billstrom, the Industrial Workore of the World leader who was exscuted here November 19 for the mur-der of J. G. Morrison, makes a general denial and challenges the jurisdiction of the supreme court of Utah in his answer filed today in the disbarment proceed-ings tostituted here by the Utah State Bar association. The proceedings grow out of an address made by Hilton at Hillstrom's funeral in Chicago, in which Hilton was said to have asserted that the Utah supreme court was influenced by the Mormon church in declining to grant Hillstrom a new trial,

The judges who presided in the Hill-strom case, including all the members of the supreme court, are non-Mormons.

## SHIPYARDS OF U.S. RUSHED WITH WORK

Crowded as Never Before in Their History and Refusing Contracts for New Types.

LARGER VESSELS BEING BUILT

WASHINGTON, Feb. 20. - Re ports to the Bureau of Navigation, made public today, show that American shipyards crowded with work as never before in their history, are refusing all contracts calling for new types of vessels and confining construction to those types for which construction plans already have been

With 230 merchant vessels, with a total tonnage of about 1,000,000 tons building or about to be started, the United States now is being outstripped in construction only by Great Britain and navigation bureau experts see in the boom a prospect when it was the foremost nation in ship building.

Doubled Within Year. The amount of tonnage under construc tion in American yards has doubled within the last year. It has increased cearly 50 per cent since Decemeber and yards are so filled with orders that steadily employed until well into 1917, Thirty-nine ships have been completed

since last July. The steamboat inspection service preparing for an expected shortage in men to command merchantmen by changing regulations governing issuance of licenses. The age limit for officers was reduced in an order several days ago and other changes in the regulations are being considered.

Department of Commerce officials are nvestigating a plan by which its promoters claim structural steel may used on the vessel construction. If it proves successful, it is declared, construction not only will be cheapened, but an immense advantage will be given to American yards because structural steel is produced in such large quantities in the United States.

Larger Ships Being Built. One prominent fact the navigation bureau's investigation revealed was that much larger vessels are under construction than in previous years.

#### SWEDEN DENIES ASKING AMERICA TO CO-OPERATE

LONDON, Feb. 20 .- A Copenhagen dispatch to the Exchange Telegraph com- were married. pany says that a Swedish official state-ment denies that Sweden has requested the United States to join in a conference of neutral countries.

Dispatches from Washington on February 17 said that Sweden had appealed to the United States to co-operate with her and other neutral nations to maintain the preservation of rules of international law concerning the protection of neutral commerce and navigation. The Swedish appeal, according to the Washington dis-patches, was signed by Swedish Ministe

# DEDUDDEDEDEDEDEDE Thousands of dissatisfied Building Owners have silently kept the story of their **Building Experience to themselves** Some have done so, because they feel that they, themselves, should have looked into the various ways of conducting the business of building a little more carefully before they let their contracts.

Others say as little as possible about their unsatisfactory building experience, because in spite of the fact that they have always considered themselves good business men, and in spite of every precaution and care possible on their part, their building did not turn out as expected.

Only the man who has had building experience is in a posi-tion to fully realize the value of a careful analysis of the busi-ness of conducting building operations before signing contracts with anybody—for upon making such an analysis he will quickly see that a business which has so many technical problems as the business of building-requires organization in order that Architects, Building Engineers, building superintendents and building mechanics shall each perform their part of the work at the right time and in the right way.

Such a man would readily recognize in this Company's Modern Building Organization an instrument that will insure him

ern Building Organization an instrument that will insure him against the expensive mistakes and the general inefficiency of the older-day building methods—for back of our highly organized force of widely experienced building professional men and building tradesmen stands a big and financially responsible firm which guarantees, as soon as plans have been completed, that the building will not exceed a certain price.
